

Science Connected

Expanding Scientific Knowledge

Each Science Connected donor and sponsor is a hero! You can help support scientific research, education, and communication on a global scale. Here's how:

GotScience.org: [FUND THIS](#)

Say goodbye to the days when you had to be part of a university or lab to access awesome, cutting-edge scientific information. Our daily digital publication and weekly digest deliver comprehensible science to the public—for free.

Science Education Resources: [FUND THIS](#)

At the request of teachers, Science Connected is creating a series of middle school science education materials. We have already started making these resources available to teachers—for free.

Other Science Connected Projects: [FUND THIS](#)

Let us choose how to give you the biggest bang for your sponsorship buck. We'll put your dollars where they are most needed.

Science Connected is a 501(c)(3) public charity. Donations are tax deductible.
